Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance:

The closest prior art of record fails to teach or suggest the recited fuel container.

Independent claim 1 identifies the uniquely distinct feature of which "the surface of the inner layer opposite to the interlayer is coated with a layer of a barrier material (C)". The closest prior art of record, Michihata et al. (EP 1072399A2), discloses a barrier material (C) coated on the outer surface of the outer thermoplastic layer (B) which is exposed to the outer environment, which either singularly or in combination, fail to anticipate or render obvious the above limitations.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Catherine Simone whose telephone number is 571-272-1501. The examiner can normally be reached on 9:30-6:00.
